

Teacher Development

Developing Teachers, Enriching Classrooms

Continuous professional development isn't a nice-to-have — it's a strategic advantage. The SpecCon Academy Professional Development Library and Tap Edge learning platform give teachers access to a growing bank of online modules that build their confidence, improve classroom delivery, and support school-wide performance.

Our platform includes over 300 self-paced courses covering a wide range of topics: from leadership and classroom management to conflict resolution, policy changes, digital integration, and compliance. These courses are aligned with South African education needs and updated regularly to keep content fresh and practical.

Why It Matters

Upskilled teachers = more effective classrooms

Self-paced learning fits real teacher schedules

Improves staff morale, communication, & problem-solving

Keeps your school aligned with evolving educational standards

Reduces reliance on external trainers and short-term workshops

Included in Your School Licence

Assign CPD courses as part of your school's internal development plan — track completion and use it as evidence for SACE and WSP submissions.

Train smarter, grow faster — empower your team with professional learning that builds stronger schools from the inside out.

Unlock the Full Potential

300+ accredited and non-accredited CPD courses.

Leadership, discipline, and digital teaching skills.

Supports SACE point tracking and SETA-aligned development.
